

Dual PowerDisk Tension System

For Precise
Tension Control

Features __

- Highly accurate tension control
- Perfect for industrial yarns
- Easy thread up
- Powered rotation of tension disks
- Self-cleaning design eliminates wear and build up
- Configurable in zones
- PLC controlled for easy adjustments via touchscreen
- Wide range of tension
- Optional Balloon Shield Stopmotion

Tension Range	10-150 grams
Operating Speed	0-1,500 mpm
Accuracy	+/- 1 gram
Voltage	110-220 VAC
Disk Cleaning Motor	5 rpm
Discs	Matte
Eyelets	Conductive Ceramic
Zones	Up to 6

PROUDLY MADE IN THE USA
