

Whorl Tension System

Improves Warping and Weaving Efficiency and Overall Fabric Quality

Features _

- Precise tension control
- Virtually self cleaning
- Rugged zinc alloy housing
- Centrally controlled tension
- No yarn damage
- Applied tension not affected by speed
- PLC controlled for easy adjustments via touchscreen
- Up to 20 different yarn profiles
- Zone controlled for even tension front to back of creel

Tension Range	5-35 grams
Operating Speed	0-800 mpm
Accuracy	+/- ½ gram
Input Voltage	110-220 VAC, Single Phase 50/60
Eyelets	Conductive Ceramic
Tension Zones	Up to 6
